Nanda, Secretary (Family Welfare), Ministry of Health and Family Welfare (MOHFW), Government of India (GOI) and Ms. Meenakshi Datta Ghosh Joint Secretary (Family Welfare), MOHFW, GOI for giving me the opportunity to undertake this assignment of compiling a data base for the EAG states and for their guidance, valuable support and personal interest in coming out with the present document. I would like to express my sincere thanks to Dr. K.V. Rao, Shri. S.C. Shrivastava, Shri N.N. Sinha Shri. A.K. Mehra, Shri. Rajendra Mishra, Ms. Subhra Singh, Dr. P.K. Shah, Dr. Kalra, Dr. Manchanda, Dr. S. Malhotar, Ms. Sadhana Shankar, Ms. Sushma Rath and all my colleagues in the Department of Family Welfare. I would wish to express my grateful thanks to the RGI & Census Commissioner Shri. J.K. Banthia for his help & cooperation for providing me the state reports. I am extremely thankful to Dr. M.C. Kapilasharmi Director, NIHFW for the support and encouragement given to me. I would like to thank Shri. N.T. Rao of NIHFW for his meticulous Word Processing work. Thanks are due to Shri. M.K. Ray and Shri. Hemant Uppal of NIHFW for shaping this document. I am also thankful to Shri. J.L. Gupta my P.S. as well as all the staff of the office of Secretary (FW) particularly Shri. S. Sammadar for their timely help at every juncture. I want to express my sincere thanks to Ms. Sashi Prabha Gupta technical advisor FNB, WCD for providing me with relevant documents on nutrition and other related areas of WCD. I would also like to thank Dr. Irudiyarajan for being kind enough for providing me with district level data on IMR and child mortality. I would like to thank all those who have helped me in some way or other in compiling this document. I might not have been able to record the names of every person who has been of help in preparing this document, if I have missed anyone, I apologize for such an omission. I once again take this opportunity to thank all those who have helped.

## **DATA BASE FOR THE EAG STATES**

The National Population Policy (NPP), 2000 prompted setting up of a National Commission on Population which in its first meeting announced the formation of an Empowered Action Group (EAG) to focus on States that have below average Socio-demographic indices . Recently, the Government of India has constituted an Empowered Action Group (EAG) in the Ministry of Health and Family Welfare comprising of 28 members under the Chairmanship of the Hon'ble Minister of Health and Family Welfare, to facilitate the preparation of Area-specific programmes with special emphasis on states that have been lagging behind in containing population growth to manageable limits.

The states which are the focus of attention of the EAG are the so-called Eight weak States in terms of socio-demographic indicators namely 1. Uttar Pradesh (UP) 2. Bihar 3. Madhya Pradesh (MP), 4. Rajasthan, 5. Orissa and the newly created states of 6. Jharkhand, 7. Uttaranchal and 8. Chattisgarh.

As a first step an attempt has been made to bring together already existing available data for these eight states from various sources, like National Family Health Survey , (NFHS-II) (1998-99), District Rapid Household Survey (DRHS-RCH ) (1998-99), SRS etc. Moreover in the mean time 3 new states Viz. 1. Jharkhand 2. Chattisgarh and 3. Uttranchal have been created and the provisional figures for the recently concluded census-2001 are out. All these data have been put together and compiled in one place. The idea being this document can be of help and can guide and direct the deliberations of the EAG.

This document is basically, a compilation and information has been drawn from various sources. Most of the data compiled in this document is from various secondary sources like provisional figures of census 2001 for India and the concerned States, SRS (Sample Registration System)- bulletins and other documents published from the Registrar General's office including SRS Statistical Report, Government documents from the Department of Family Welfare, Ministry of Health and Family Welfare (including Annual Report and the Year Book) and Department of Women and Child Development, Ministry of Human Resource Development (including their Annual Report).

Besides the Census data, information from the Rapid Household Survey (RHS)- RCH conducted during 1998-99 by the Department of Family Welfare, Ministry of Health & Family Welfare has been used extensively. This is useful because of its disaggregated nature and the data is at district level. Data from NFHS-II and Facility Survey have also been used. One of the important feature of this document is the latest information mostly unpublished from various Sections of the Family Welfare Department like Area Projects, RCH, Statistics, Maternal Health, Child Health, Services and Supply, NGO, Policy etc. relating to various programmes as well as new initiatives have been incorporated in this document.

The EAG is supposed to concentrate on involving voluntary associations, community organisations and Panchyati Raj Institutions. With this in view relevant information from other departments like Women and Child Development, Rural Development and NGOs/ Voluntary Section has also been obtained and incorporated in this document.

The compilation of various types of statistics/data for this document was not an easy task. One of the most striking element during this exercise of collection of data was the absence of the reliable data on some important variables as well as multiplicity and varying data under one single heading. Secondly, as the new States have been created recently, data from SRS bulletin for indicators like birth rate, death rate, IMR as well as for other specific fertility indicators like TFR, GFR, ASFR etc. and child and infant mortality indicators like neo-natal, post-neo natal mortality and still birth rate etc. for these newly created States are not available at the moment. Data in this regard pertains to undivided States. We have to wait till data in disaggregated form for these new States are available.

Similar is the case with NFHS-II (1998-99) data. Again no specific data for the new States are available. However, fortunately, the provisional figures for the Census 2001 have come out for the newly created States. An exercise has been done to cull out district level data on key indicators from DRHS and aggregate them in order to get an approximately figures for the newly created States.

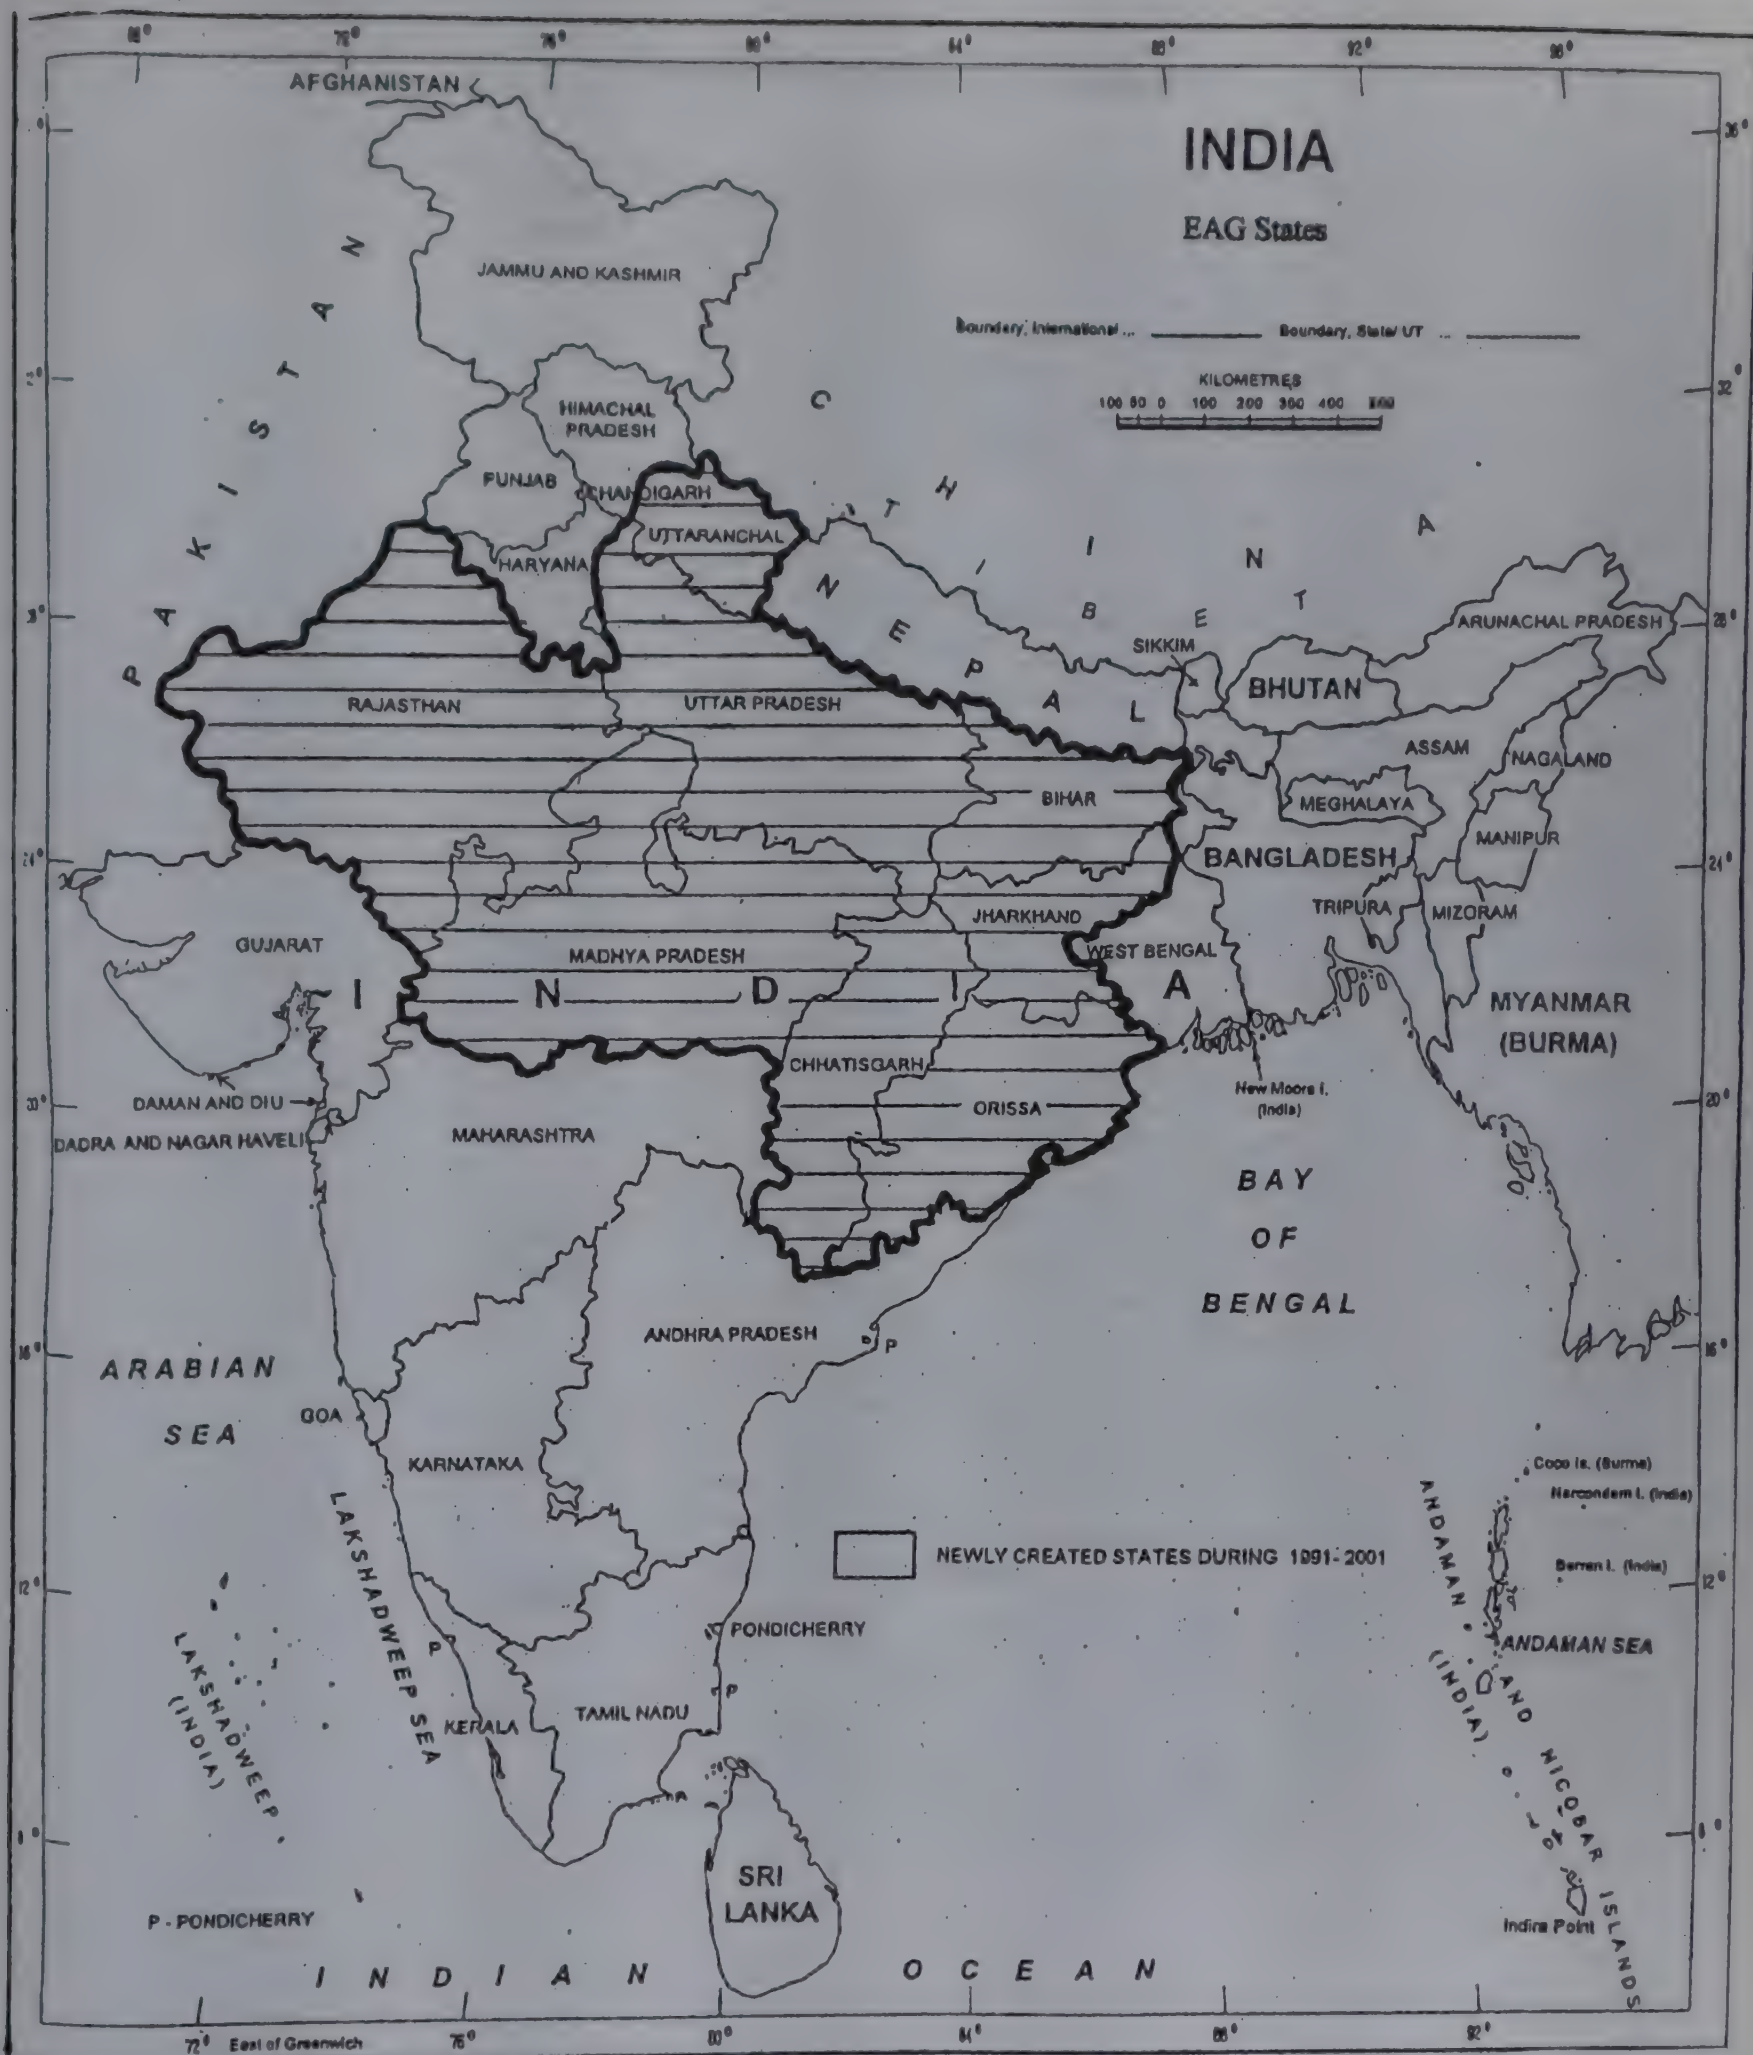

As regards the health infrastructure and health manpower data, there are some difficulties. As far as health infrastructure namely sub centres, PHCs and CHCs is available for all the eight States. The data on health manpower is only available for State level and that too for undivided States like Rajasthan and Orissa. Data for U.P., M.P., Chattisgarh, Bihar and Jharkhand is not yet available. Uttranchal, the newly created State is the only State which has sent the district level data relating both to health infrastructure and health manpower for 10 districts of erstwhile UP (which have now been divided into 13 and form part of Uttaranchal).

A complete reference is annexed.
